

CNC ROUTER

VE-1325/1325A

Details :

1. 3.7kw water cooling spindle

2. Stepper motor and “Leadshine” DMA860H driver

3. 5.5 KW water pump

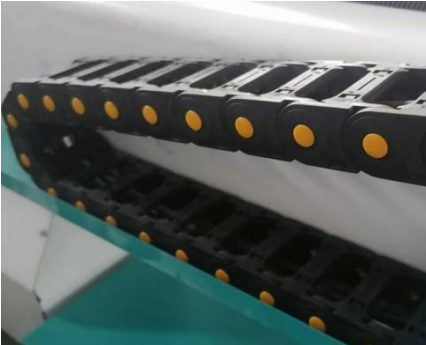

4. Best-CN brand inverter

5.X,Y,Z axis adopt Taiwan #20 guide rail.

6. Vacuum worktable with manual positioning device

7.RICHAUTO DSP control A11	
8.Flexible drag chain to protect the wires.	

*Pictures for reference only, specific products in kind prevail.

Optional:

1. Ncstudio computer control system 95A3L,small electrical box + computer & keyboard	
2. Positioning cylinder 3+2 pcs	

3. Touch off device

Parameter:

Worktable size	1300*2500*200mm
Control system	RICHAUTO DSP control A11
Machine head structure	3.7KW Water cooling spindle
worktable	Vacuum worktable
Positioning	manual positioning device
Vacuum pump	5.5kw water pump
VFD	BESTCN brand
Operation instruction	G-code
Worktable size	1300*2500*200mm
